

Start Co-development: Leather & Footwear

Why Co-develop with IndiaUnbox?

India is one of the world's leading producers of **leather, footwear, and leather goods**, offering a blend of **heritage craftsmanship, advanced machinery, and sustainable practices**.

Through IndiaUnbox, global buyers can co-create collections of **footwear, bags, belts, and accessories**, with access to **certified tanneries, footwear clusters, and skilled artisans**—all under strict compliance with **global environmental and safety standards**.

Our Co-development Process

-  **Concept & Design Brief**
 - Understanding your product vision (casual shoes, formal footwear, bags, belts, accessories).
 - CAD/CAM design support for footwear and leather goods.
 - Trend boards, styling details, and market alignment.
 -  **Material Selection**
 - Genuine leather: full-grain, top-grain, nubuck, suede, nappa.
 - Non-leather: PU, PVC, vegan leather, recycled fibers.
 - Components: soles (TPR, EVA, rubber, leather), zippers, buckles, trims.
 -  **Prototyping & Sampling**
 - Pattern making and cutting (manual + CAD).
 - Prototyping of footwear uppers, lasts, and leather goods.
 - Fit tests, comfort checks, pre-production samples.
 -  **Testing & Compliance**
 - REACH & CPSIA compliance.
 - Chromium VI free, azo-free dyes.
 - Slip resistance, flexing, waterproofing, and abrasion tests.
 -  **Production & Scaling**
 - From small batch (100 pairs/bags) → large-scale production (50,000+ pcs/month).
 - Cutting, stitching, lasting, finishing, and packaging.
 - On-site QC, inline inspection, and final AQL checks.
-

What You Can Develop with Us
