

Start Co-development: Textiles & Apparel

Why Co-develop with IndiaUnbox?

At IndiaUnbox, we believe the future of fashion and textiles lies in **collaboration between global buyers and India's world-class manufacturing hubs**. Whether you are a brand, retailer, or designer, our co-development process ensures your ideas are transformed into **fit-for-market, scalable, and sustainable products**.

We connect you with **audited mills, dye houses, laundries, and CMT factories** across India—delivering fabrics, apparel, and home textiles with **on-time delivery, strict RSL compliance, and customization flexibility**.

Our Co-development Process

1. Concept & Design Brief

- Understand your brand DNA, target market, and product vision.
- Mood boards, style inspirations, and fabric directions.
- Technical design support (CLO/Browzwear/Optitex 3D).

2. Material & Fabric Selection

- Knitwear (jersey, rib, fleece, French terry).
- Wovens (poplin, twill, jacquard, dobby).
- Denim (4–14 oz stretch/non-stretch).
- Sustainable options: organic cotton, recycled PET, modal, Tencel™, bamboo blends.

3. Prototyping & Sampling

- Digital sampling (3D renders) before first cut.
- Physical prototypes: garments, trims, packaging.
- Lab dips, strike-offs, fit sessions, pre-production samples (PPS).

4. Performance & Compliance Testing

- RSL compliance checks.
- Wicking, antibacterial, UV protection finishes.
- Print/embroidery testing for shrinkage, fastness, and wash durability.

5. Pilot Production

- Small batch runs (MOQ flexibility).
- On-site QC and inline inspection.
- Feedback loop with buyer for refinements.

6. Bulk Production & Delivery

- Scaling production across multiple hubs (Tiruppur, Ludhiana, Noida, Surat, Bengaluru, Ahmedabad).
 - Timely shipping via optimized supply chains.
 - Branding, packaging, and value-add services.
-

What You Can Develop with Us

- **Apparel:** Tees, polos, hoodies, dresses, shirts, bottoms (denim, chinos, leggings), outerwear, uniforms, athleisure, modest wear, kidswear.
 - **Home Textiles:** Bed linen (144–1000 TC), towels, quilts, cushions, throws, curtains, table linen, kitchen utility.
 - **Value-Adds:** Embroidery, applique, sequins, digital printing, heat transfer, eco-friendly garment washes, trims, packaging.
-

Why India for Co-development?

- **Diverse Manufacturing Hubs:** Knitwear in Tiruppur, denim in Ahmedabad, fashion apparel in Noida/Gurugram, high streetwear in Bengaluru.
 - **Cost Advantage:** Competitive pricing vs global supply chains.
 - **Customization & Speed:** Agile manufacturing with flexible MOQs.
 - **Sustainability Edge:** Organic fabrics, recycled fibers, eco-friendly dyes, and green-certified factories.
-

Next Steps

 Share your **design brief** or initial idea with us.

 We'll assign you a **co-development manager** who will coordinate design, prototyping, and production.

 Begin your journey from **concept to shelf-ready product** with IndiaUnbox.
